THE BEST TEST

Is the Test of Time

Years ago Mrs. Mary Gammon of 20 Maple street, Norway, told of good results from using Doan's Kidney Pills. Now Mrs. Gammon confirms the former statement—says there has been no return of the trouble. Can Norway people ask for more convincing testimony?

"I have kept Doan's Kidney Pills in my home for years," says Mrs. Gammon. "I had a dull, heavy ache across the small of my back and often attacks of dizziness came over me. Doan's Kidney Pills which I got at Kimball's Drug Store relieved me of this trouble. I use Doan's Kidney Pills off and on as a kidney tonic and I couldn't wish for anything better to keep my kidneys in a healthy condition." (Statement given June 7, 1916).

On September 4, 1920, Mrs. Gammon said: "I have always a good word for Doan's Kidney Pills since they cured me of kidney trouble. I am pleased to again give my endorsement. I confirm all that I said in my former statement as my cure has been permanent."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gammon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

WHERE IS THE HOMETOWN?

By Llewellyn A. Wadsworth, Hiram, Me.

Where is the Hometown for which we sigh, With its crystal waters and golden shore, The home of our loved ones whom they die? Beautiful Land of the Evermore.

One by one they are borne away, With their silver tresses, or sunny hair, Where do their footprints roam today? Where is their Hometown? Where, O Where?

Often I sit by the fireside bright, And look through tears to a vacant chair, And think of my dear one's last good night, But where is the morning? Tell me where!

What shall tell, to a heart forlorn, Where is the land of the Golden Year, Where the bloom of the Rose never hides a thorn, And the smile is never a veil for tears?

We shall give no heed to time or space, In the summer land, where our loved ones roam, When we hear each tone, and see each face, And clasp the hands that beckon us home.

IN MOTHER'S DAY In mother's day, I here assert, The women folk were more alert, In matters quite essential, In those days of olden years, No matter what, or when, or why, Without four square credentials, For women men had level heads, (Even including the newly weds) In useless limitation. They were domestic in their taste, Allowed no time to go to waste, And knew their limitation. They recognized in mode of dress The half a yard of the new dress, Would be an impropriety. Yet they were in no wise prudish In thinking that the semi-nude Would lead to notoriety.

Their shoe heels then were low and broad, Because, to have their feet well shod, I think they would as soon wear kilts, As tried to use a shoe on stilts, A Or any such monstrosity.

I don't recall that in those days Nothing more solid than a haze (Or spiderweb material) Was used as substitute for waists, Together with some bits of lace, And other stuff abhorred.

I don't back back to mother's day With any wish to have my say, About the sex called feminine, But something sure has broken loose, (I know not what it is forsooth) Since those days of crinoline.

Woman Suffered In Silence

Health Poor, Beauty Fast Fading Away— Made Believe She Was Well

A woman of New Auburn (Me.) writes: "There must be lots of women who feel as I did. I suffered in silence many times on account of my pride, but now I know that a good laxative is essential to good health. I neglected my health trying to keep cheery and pretending I was all right when I wasn't. I had terrible pains, was 'grouchy' and my headaches almost killed me with pain, and worst of all from my viewpoint I had a hollow, unbecoming complexion which was not helped by face powders. Why didn't I try to cure myself rather than pretend? After taking Dr. True's Elixir, I now know that a laxative was what I needed. Dr. True's Elixir is mild and pleasant to take, and works just right for me. My complexion cleared up—bright and ruddy—blemishes vanished and everyone remarked how much better I looked."—Mrs. B. J. B., New Auburn, Me.

The root of many of the evils of sickness is the bowels, a very vital part of the human body. A cold, a fever, diseases or the like can be helped at once, providing the operation of the bowels is normal—the first and most important relief can be had by giving a Laxative, be sure it is the proper kind.

Most everybody in these days of quick action and strife forget their health. The laborer bolts down their meals, often go to bed right after eating, and wake up in the morning restless, force down a breakfast and then feel distressed all day.

An Outdoor Worker says: "I couldn't puzzle out what made me feel so bad. My good, home-cooked meals didn't even taste good, and I had headaches and was grouchy. I never thought it was constipation, but now I know, for I took four doses of your Dr. True's Elixir, and it fixed me up grand. I will never be without it again in case of constipation."

—R. B. B., Alliston, Mass.

The bowels need attention first and always. Rich foods, improper cooking, irregular and quick eating, lack of exercise can all offset providing a mild laxative is taken regularly. A Business Man writes: "The continual rush of office details and the short meal hours I get, together with, I think, restaurant foods, has simply knocked my system all to pieces. I felt lousy, and had no appetite until I took Dr. True's Elixir, as a Laxative. It is a great thing. No one should neglect their bowels."

Dr. True's Elixir, the Family Laxative and Worm Expeller, with an established reputation since 1851 (over 68 years) has accomplished the seemingly impossible. It has relieved thousands of sufferers from constipation, which causes so many terrible disorders.

Every motor highway and byway throughout picturesque New England and New York is a part of the long "Socony Trail".

MOTORISTS, commercial truckmen and farmers—from Salem, Mass., to Oswego, N. Y.—have come to depend upon Socony products. Thus, ordinary demand has become a responsibility which the Standard Oil Company of New York is constantly striving to fulfil. This is the reason for the steady growth of Socony service.

Refining processes, like motor construction methods, are always being improved. Socony gasoline is made and tested in accordance with the most recent standards of accuracy—insuring uniform cleanness, constant mileage to every gallon and absolute dependability. There is a difference in gasoline—just as there is in coal. It will pay you to discriminate.

Socony is a straight-refinery gasoline. It vaporizes quickly, but it is more than a mere easy-starting fuel. Owners of large motor truck fleets use Socony regularly because it is uniformly high-powered and clean-burning.

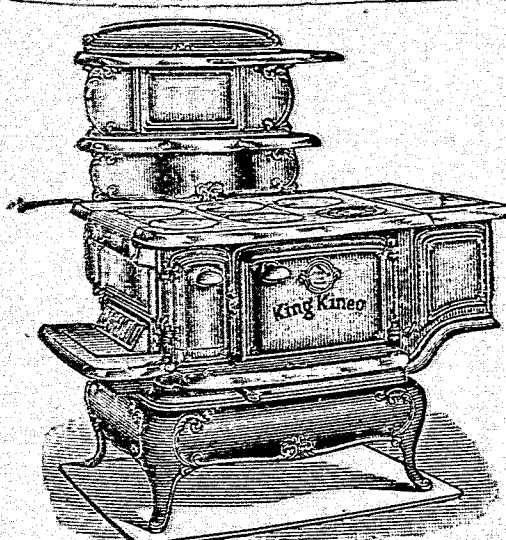

Look for the red, white and blue Socony sign.

WELCHVILLE FAIR.

Balmy weather and clear skies assisted Oxford Grange to launch one of the best fairs ever presented in Welchville. About 1000 people gathered around the Grange hall or were scattered along the highway where fairs and hawkers offered their wares from booths and tents. Pulling horses down the road near P. O. Barrett's general store and post office was a favorite sport and attracted an excited crowd along both sides of the Main street. Altogether, last Saturday was a big day. The show more than doubled in attractions and attendance and was conceded the best exhibition given to date.

Along the Trail.
Shows and salesmen were busy on both sides of the road. They naturally clustered about the Grange hall which was general headquarters for exhibits and a splendid dinner served in a style typical of the lady members of Oxford Grange. The gas balloon man was there, passing over the floating bubbles to eager children. Sofa pillows of attractive design could be had with a lucky number. The strong arm boy might leave a ball through a "kitty" or knock down nine pins in the alleys. That almost forgotten African Dodge, black as the ace of spades, peeping through a hole in a canvas wall, was on his job. This fair was fortunate in securing his services as in late years that gentleman has been gradually drifting into the rear ranks in favor of modern novelties.

Wrestling was the big card in the tent carried on by Richardson and York. This proved a wonderful show to many having heard about that manly art. Young Abbott, a champion of Maine, was the headliner. Several local athletes were coaxed onto the mat and a good patronage watched the show and stayed for fair purposes only.

The ever present wild man was also on the spot. Was there a fair ever staged where this terrible creature has not gnawed bones and given hundreds a nightmare. Kak-la was his name, and said to be a native of Azon, a mysterious district on a mythical planet. A wild looking being he was with an appetite for raw meat.

Running the show into bankruptcy considering the high cost of living from the butcher cart. Many of the curious paid their respects to this weird creature and cheerfully passed over fifteen cents to see a make-up of burned cork, yellow paint and an effusion of horse tails for a wig. Barnum would swing into the multi-millionaire class were he living today.

The Lone Star Wild West, with Dallas Benson and wife the principal actors, occupied a large lot not far from the center of attraction. Shooting, roping, broncho "busting" and the usual acts common in Texas and through the west were given in a skillful manner. This show, organized during the early summer, has played to fine business in summer resorts and at numerous fairs. The program has been typical of ranch life and brought to the Easterner a glimpse of sport dear to the heart of any person enjoying clean fun and natural cleverness.

Will Rice of Norway sold those delicious potato chips, and Mrs. Rice conducted a stand near the hall where beads and wire goods were an attractive article for purchase.

A great attraction was the Chinese String game handled by Johnny B. Tempesta, formerly a shoemaker in Norway. Kewpies and other wonderful articles could be secured if the proper string was selected. Johnny proved a convincing speaker and his pleasant smile captivated many dimes. Of course every patron secured a gift, but the old saying is true, even here, "You can't beat the house."

This is Johnny's second year as fakir, so he carries all the lip and tongue language known to the profession.

Asaph Richardson, the Norway Showman was there with hot dogs, cold drinks, cigars, etc. Bill Richardson was with him and assisted at the stand during a rush. He had his eyes also on the wrestling show, which is partly controlled by the Richardsons.

Will Twitchell of Oxford dispensed grapes, bananas and other fruit. Competition was keen in this line and various booths handled large stocks. Even sweet potatoes were sold from a cart by a Lewiston trader, formerly a junk collector at South Paris.

Various souvenirs in the form of buttons, badges and ribbons, were considered a thing of beauty. Feather ticklers, whips, and many novelties, gave the crowd a real holiday appearance, and put Welchville on the map where real ones live.

Drawing Horses.
A large crowd assembled early along the street near the general store to watch the big event of all. The road was not an ideal spot for a long distance pull owing to river gravel in the road bed.

After some preliminary consultation the first event between pairs weighing 3000 pounds and under was started with four entries. Some 6000 pounds of stone was the load.

First, A. A. Trundy, Minot, 188 ft., 9 in.; second, J. B. Robinson, Oxford, 177 ft.; third, E. S. Hayes & Son, Oxford, 115 ft.; fourth, F. D. True, Poland, 59 ft., 6 in.

Prizes were awarded for this event as follows: Trundy, \$10; Robinson, \$7.50; Hayes, \$5; True, \$2.50.

After dinner the 3000 pounds and over was called with six contestants. The load was increased to 3500 pounds. Trundy's pair won this distance easily by a straight pull, while the others experienced considerable difficulty getting their teams away without side hauling and much coaxing. The result is as follows:

First, A. A. Trundy, Minot, 192 ft., 8 in.; second, F. D. True, Poland, 32 ft., 10 in.; third, J. B. Robinson, Oxford, 28 ft., 9 in.; fourth, C. S. Hayes & Son, Oxford, 25 ft., 5 in.; fifth, A. A. Bumpus, Oxford, 22 ft.; sixth, Laforest Thomas, East Oxford, 20 ft.

Prizes were awarded as follows: Trundy, \$10; True, \$7.50; Robinson, \$5; Hayes, \$2.50.

Committee—A. L. Chaplin, chairman, Clem Poland, Frank Bowker, Judges—Herbert Flood, Clayton Lovjoy, John Ordway.

A. L. Chaplin was on the spot after the pulling with cold cash for a settlement. He held a roll that would choke the proverbial horse and paid in full each prize winner. John Ordway and the other judges held an intangible bee directly after the performance. It seems early in the day the tape measure pulled

In Exhibition Hall

The Oxford Grange served dinners in their dining room on the first floor of their hall to many people. Ice cream was sold in the small room off the entrance to the dining room by the Grange. Upstairs in the Grange Hall were the hall displays. There were fine exhibits of farm crops by J. V. Hunting and C. H. Brett. They had nearly everything raised on farms in this section of the United States. In the smaller individual displays there were the best of their several kinds.

The work of fine hand embroidery, crochet and fancy work were there in large numbers and varieties, artistically wrought by the ladies, and were things of beauty, and a joy to the crowd that admired them.

When considering the beauties of nature, start with your own front yard. Clean it up, cut the grass at the proper time, plant flowers in season, make it a joy to the eye. Move right on around to the back of the house, repeat the operation, and then look around and see if anything has been missed. If you see your yard is a little better than yours, make up your mind that yours must be better than his. Man should not judge the works of the Lord until he has first set his own domain in order.

MORAL STANDARD.

What constitutes a moral standard? Certain fast and plain rules of society are so self-evident as distinguished between right and wrong as to admit of no question, but beyond that there are dozens of less arbitrary standards that give rise to the first question. A discussion brought out some amusing stories.

"The younger generation is not rising to the fact of responsibility as did the generations preceding," stated one woman. And making allowances for the indisputable truth that the older generations always think their ways and their bringing up the best there is some truth in her statement. It does not seem that the girls of today care for the things that interested their mothers, they are, the speaker continued, "given over to dancing and to moving pictures and playing cards and do not seem to be on the things which we have established and which make for fine civic conditions. Especially are some of the younger matrons devoting themselves to card playing again, though that pastime was shunned during the war."

I had an invitation, the other day, from a lady to join her bridge club. And she said to me: "You know we play for money, and that gives it such an interest, I am sure you would enjoy it." I told her frankly I did not care to join, for two good reasons. First, I did not have the time to spend, and secondly, I did not believe in playing cards for money. Especially did I deplore it in a woman. She seemed much surprised and a little hurt, and came back at me pretty severely. "I can understand your objection," she said, "but I do not care to join, for two good reasons. First, I did not have the time to spend, and secondly, I did not believe in playing cards for money. Especially did I deplore it in a woman."

She seemed much surprised and a little hurt, and came back at me pretty severely. "I can understand your objection," she said, "but I do not care to join, for two good reasons. USE OF FOREST PRODUCTS

In addition to the ordinary uses of wood with which we are familiar, man is dependent upon the forest for a variety of products whose appearance does not indicate their origin. Numerous as these products are, and as extensive as is their use at the present time, science is constantly learning new constituents which enter into the makeup of wood and finding new uses to which these constituents and those already known can be put. Powder for munitions or blasting, disinfectants for protection against contagious diseases, and artificial silk for clothing are among the products obtained in whole or in part from wood.

Charcoal, as everyone knows, is essential for the manufacture of black powder. All of the acetone used as a solvent in making nitrocellulose powders is derived from acetic acid, a product of hardwood distillation. Great Britain, it is said, is dependent upon the United States for acetone used in making cordite. Black walnut is a standard for gunstocks, and has been so much in demand that our supply of this valuable wood has been considerably reduced. Other woods, notably birch, substituted.

Pure wood alcohol is the only substance which can be converted commercially into formaldehyde, which is universally used for disinfection against such contagious diseases as smallpox, scarlet fever and tuberculosis. The experts at the Forest Products Laboratory have conducted extensive experiments on the production of grain or ethyl alcohol from wood and have been successful in experimental work in raising the yield and lowering the cost of production. If this process can be put on a commercial basis, the foresters say, it will result in putting the millions of tons of coniferous sawdust and other material which is now wasted every year to a profitable use.

By conserving cellulose, one of the elements of wood, into a gelatinous material, known as viscose, a wide field is opened up for the utilization of wood waste and a new line of products, varying all the way from sausage casings to tapes, is added to the already lengthy list. Many of the so-called "silk" socks, neckties and fancy braids contain artificial silk made from wood.

About nine-tenths of all the paper which we use is made from wood. Besides the detailed investigations of the methods of making newspaper, paper and of the production of paper from woods hitherto unused for that purpose, which have been conducted, kraft paper, which compares favorably with the best on the market, has been produced experimentally at the Forest Products Laboratory from longleaf pine mill waste.

This kraft paper is brown in color and is very much stronger than ordinary paper. It is used for a variety of purposes, and, cut into strips, is spun or twisted into thread which is then woven into outer and coffee bags, gaffing, suitcases and wall covering, similar to burlap, and furniture closely resembling that made from reeds, as well as other articles of common use.

Within the past few years the Forest Products Laboratory has, by cooperating with manufacturers, succeeded in getting a dye made from mill waste of orange orange put on the market as a substitute for fustic, which we import from Jamaica and Tehuantepec.

A USE FOR LONG EVENINGS
The season for long evenings is here, and a good use for this gift of time and indoor hours is to revive the practice once almost universal of reading aloud in the family circle. Those now of middle age, or older, remember the pleasure and profit of such evenings in their youths, and regret the noticeable discontinuance of this beneficial custom.

The great number of popular periodicals, the enlargement of the daily newspapers, in scope and in the number of pages, the continuous availability of the motor car and the movies have resulted in a neglect of good literature, current and standard. This is not well for good literature is a great educator, and a friend once made that never fails or dies.

For generations there was no more truly American scene than the familiar and frequently pictured family group around the evening lamp reading, discussing, and committing to memory the best in literature, both poetry and prose. Today it may be considered old-fashioned so to do, but it is a custom which can well be revived and continued. Why not in this next few weeks, even at the sacrifice of more obvious and exciting things? Especially will the children of the household profit thereby—possibly against their will—and in later years will be thankful.

WOMEN JURORS.
A year quickly passes, but the women electors of the nation during that period will have time to consider some of the perplexing situations certain to develop as the result of their legal right to vote. Next year women will be eligible to sit as jurors in courts of common pleas. In municipal, police, mayor's and magistrate courts they may be called sooner than that. Here the mood, discretion, personality and temperament of the clerk will determine how many and how often, women may be called to sit in judgment upon the Smith, who did this and there, with felonious intent, slug, beat, hammer and wound and otherwise maltreat one Bill Jones, contrary to the peace and good order of the community and against the dignity of the state; or they may call upon Mary Ann Johnson, who they thought one Mary Ann Johnson loved not too well but lightly, sundry persons named in a certain legal document called an affidavit.

When summoned as talesman the voter must go. My lady may desire to see it grow, and she may desire to see the dinner going, or to fuss with baby's toilet, but the will of the court will bend her instantly to obey the majesty of the law, even though husbands go hungry and bridge parties languish. She may, however, too, must be reckoned with, for in their efforts to ascertain the qualifications of women to sit as jurors, under their rights, will propound many intimate questions which feminine nature is certain to regard as none of their business and probably will be led to express their opinion with asperity and emphasis.

But the new formula is to be Ladies and gentlemen of the jury. And while the male members of that palladium of liberty smoke, and ruminate their thoughts, the lady members ply their powder puffs and masticate their gum, the destinies of the malefactors and the rights of litigants will be determined; let us hope, in the interest of justice.

Fifty-Second Wedding Anniversary

Mr. and Mrs. W. Frank Cox celebrated their 52nd wedding anniversary October 5th and were given a surprise in the evening when several of the neighbors and a delegation from Harry Ruston Relief Corps called on them. Mr. and Mrs. Cox were taken wholly by surprise. They were presented with gold pieces from the Corps and other gifts from friends. At the time Mr. and Mrs. Cox celebrated their fifty-second anniversary the epidemic of influenza was at its height and no social gatherings were held. The evening was devoted to sociability and Mr. and Mrs. Cox received congratulations for many more happy years.

Mr. and Mrs. Cox are both natives of Norway and have always lived here. Mr. Cox is the son of William Cox, Jr., and Elizabeth S. Millett. As a young man his time was devoted to attending school and assisting his father on the farm.

During the Civil War he enlisted with the 23rd Maine Regiment, Company H, under Capt. Noyes, and was discharged July 15, 1863. He re-enlisted Feb. 16, 1864, in Company B, 32nd Regiment, where he was promoted to corporal and later to sergeant. He received his discharge from this regiment in December of the same year, when it was consolidated with the 31st Regiment. On Dec. 29 he again enlisted with the Coast Guards and was with the battery at Belfast until the close of the war, receiving his discharge July 7, 1865.

After his return home he worked with his father on the farm, and on Oct. 5, 1868, was united in marriage with Catherine F. Noyes, daughter of Amos F. and Lydia F. (Hobbs) Noyes. Her father and grandfather were both military men in their day, and were captains of the Norway Company, her grandfather in 1808, and her father in 1836, and held this position during the "Aroostook War."

Mr. and Mrs. Cox lived on a farm at Swift's Corner for 20 years where Mr. Cox had one of the finest fruit orchards in the town. He was very successful as an orchardist. They moved to the village 22 years ago, as Mr. Cox's health was not of the best and would not permit of hard labor such as is required on a farm. Since coming to the village he has been authority on pruning and grafting.

Mr. Cox is a member of Harry Ruston Post, No. 54, G. A. R., and is past commander, and for many years has been chaplain. Mrs. Cox is a member of Harry Ruston Women's Relief Corps, No. 10. Mrs. Cox has been both Senior and Junior Vice Commander in the Relief Corps. Both Mr. and Mrs. Cox are members of the Second Congregational church.

Mr. and Mrs. Cox have two children, Oscar N., a successful farmer and market gardener at Noble's Corner, and Wendy, wife of Edward E. Harris of Somerville, Mass.

No Market for Apples.

Complaint is made that there is no call for apples. The crop is considerable below the average, but is too great, if there are no buyers.

Potatoes are reported as rotting badly.

Mr. Beaulieu will have supervision of ten men at Coaticook station and believes the position will prove desirable in every way. Mrs. Beaulieu and the children will not follow till the middle of November.

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Carrollton, Ky.—"I suffered almost two years with female weakness. I could not walk any distance, ride or take any exercise at all without resting. If I swept the floor or did any kind of work it would bring my sickness on. I was weak and languid, had no energy, and life was a misery to me. I was under the care of a good physician for several months and tried other remedies. I had read of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking twelve bottles I found myself much improved and I took six more. I have never had any more trouble in that respect since. I have done all kinds of work and at present am an attendant at a State Hospital and am feeling fine. I have recommended your Vegetable Compound to dozens of my friends and shall always recommend it."—LILLIAN THUR, 324 S. 6th St., Carrollton, Ky.

If you have any symptoms about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

ALBANY

Allen Boy Shot
An accidental shooting took place, Friday in Albany. John H. Allen, the 14 years old son of Mr. and Mrs. Howard A. Allen after returning from school took his gun and went into the woods hunting. As he did not return to supper his father became somewhat anxious and in company with several other men went out to make search. Not finding him readily they returned home and sent out word to the neighbors, who gathered with lanterns and started out again, and they found him in the evening on the side of the mountain, dead.

The lad wore moccasins, and evidently he slipped in climbing, and was carrying the gun over his shoulder, when the shot entered his side, passing through the right side of the heart, and out at the back. Powder stains on his clothing proved the fact that he was shot with his own gun at close range. He was the youngest of a family of five children, four sons and one daughter, and was a favorite with his school mates. He was a grandson of Alphonso Allen, and a nephew of Fred Allen of Norway. Medical Examiner, Dr. Herman L. Bartlett of Norway was called, who pronounced death due to accidental discharge of the gun.

EAST HEBRON GRANGE FAIR

The annual fair held Thursday, Oct. 7, by the members of East Hebron grange was a success in every way. Sunny weather helped out the attendance although many of the farmers are busy gathering their crops. Automobile parties were numerous and a big crowd had gathered before the noon hour. Among the features of the afternoon was a wrestling match. Horse pulling and ball games interested others. The event closed with a drama and dance in the evening.

A big rush was on at noon for the dinner which consisted of hot oyster stew and baked beans.

On the upper floor of the hall the agricultural and household products were displayed. Silk quilts were shown by Mrs. G. H. Allen, P. N. Carpenter, Mrs. M. C. Hutchinson. A cotton quilt was also exhibited by Mr. Carpenter. A collection of fancy articles by Mrs. B. R. Beals included a bed set, linen scarfs, table mat set, towels and a yoke. Florence Allen showed a very pretty colored center piece. Bertha Eastman, embroidered towel and crocheted mat. Grace Eastman, a crocheted mat representing the flag. Mrs. L. A. Martin a soft pillow, the design of which was a basket of flowers. Linen scarfs and a crocheted yoke were also shown by her.

Mrs. May Johnson exhibited a beautiful white towel, also a crocheted yoke. Mrs. Linwood Keene two cases of silk socks. May L. Keene a linen scarf made by her mother at 70 years of age. A ladies' night gown was the work of Verna M. Stevens. Mrs. Lilla Keene a colored center piece worked with flowers.

A buffet scarf with worked edge and a pair of pillow cases were shown by Mrs. Lottie Needham. Mrs. S. O. Verill exhibited two embroidered sofa pillows, crocheted yokes, and a crocheted bag, also three different kinds of insertion.

Among the interested exhibitors was Mrs. Charlotte M. Berry who was 93 years of age last March. For many years she was a member of Hebron grange and has always been to the fair. Mrs. Berry was born in Turner where she lived until she was 40 years of age. After that she came to Maple Grove Farm of which W. H. Berry and Albert Allen are the proprietors, Mr. Berry being her son. Mrs. Berry is very active for one of her years and showed a braided rug.

The agricultural products included a fine exhibit from Ridgeway Farm, the proprietors of which are Franklin Pierce and son. On the table overlooking their exhibit was two fine ears of 8 rowed flint corn, one the red variety. Another trace was popcorn, and all kinds of vegetables. Four pumpkins bearing the words "Stand by the League of Nations" formed the background of the display. A variety of canned goods.

Harold Smith, aged 13, had a fine display of fruit and vegetables.

Mrs. Lucy Bailey exhibited a serpent cucumber about 3 feet long, a white cucumber 15 inches long, and lemon cucumbers.

Mrs. Ione Allen showed 30 varieties of canned goods which looked very tempting. It included preserves, maple syrup, pickles, vegetables, meat, mince, meat, she also showed a variety of vegetables. Her display was attractively decorated with autumn leaves.

Maple Grove Farm, Berry and Allen, proprietors, not only showed vegetables and fruit, but dairy and poultry products. Single comb pure bred White Leghorn eggs were white as snow. A jar of milk came from their dairy.

Warmth - when and where you need it

KEEP the house warmed all over with your regular heater—and supply the rooms you want to use with the additional comfort-point warmth of a Perfection Oil Heater. It gives out just the heat you require, where you want it, when you need it.

How to exercise the greatest economy in house heating

Rooms and hallways that are used only a few minutes each day are a constant source of wasted heat, greater, probably, than you imagine. Don't "rush"

your hot air or steam heater to make only two or three rooms comfortable.

The Perfection Oil Heater has solved the heating problem in over a million homes. It is ornamental anywhere and easy to carry about—weighs only a few pounds. A child can light it—and take care of it, for that matter. It burns for about 10 hours on a single gallon of kerosene.

Most hardware, housefurnishing and department stores sell the Perfection, in blue or black finish, with or without nickle-plated trimmings. Ask your dealer to show you one.

For best results use Socony Kerosene.
